VicPhysics

EARTH & SPACE
OUT-OF-FIELD WORKSHOPS

PD INTENSIVE | 2026 TERM 4

SCIENCE TEACHERS YRS 5 TO 10

- ✓ Are you teaching Science in Years 5 to 10?
- ✓ Do you find physics challenging?
- ✓ Are you out of your field of expertise?

The Earth & Space intensive module steps you through the key concepts and skills required to successfully teach the relevant Victorian Curriculum 2.0 years 5 – 10 science content

WHY PARTICIPATE:

- Deepen your conceptual understanding of earth, moon and sun systems and the science of climate change.
- Engage in key hands-on practical activities that you can directly deploy in your classroom.
- Unpack typical student misconceptions and learn best practice pedagogy for combatting them.
- Improve your ability to differentiate curriculum and assess student achievement.
- Access materials to support your classroom practice prepared by experienced teachers and science education academics associated with the Vicphysics Teachers' Network.
- Become part of a network of like-minded teachers that are striving to improve their practice.

- **In person at Kew High School, Burke Road, Kew**
- **2 x 6hr sessions 9am to 3pm (Primary 1 session only)**
- **Thur 5 Nov (Prim + Sec) | Tues 10 Nov (Sec only)**
